# 5. Fire-fighting measures

| General Fire Hazards:  | Use water spray to keep fire-exposed containers cool. Fight fire from a protected location. Move containers from fire area if you can do so without risk.  |  |
|--|--|--|
| Suitable (and unsuitable) exting   | uishing media  |  |
| Suitable extinguishing media:  | Use fire-extinguishing media appropriate for surrounding materials.  |  |
| Unsuitable extinguishing media:  | Do not use water jet as an extinguisher, as this will spread the fire.   |  |
| Specific hazards arising from the chemical:                                | Vapors may travel considerable distance to a source of ignition and flash back.  |  |
| Special protective equipment an  | d precautions for firefighters   |  |
| Special fire fighting procedures:  | No data available.   |  |
| Special protective equipment for fire-fighters:                            | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.   |  |
| 6. Accidental release measures   |  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures: | Ventilate closed spaces before entering them. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep upwind.  |  |
| Methods and material for<br>containment and cleaning<br>up:                | Absorb spill with vermiculite or other inert material, then place in a container for chemical waste.   |  |
| Notification Procedures:   | Prevent entry into waterways, sewer, basements or confined areas. Stop<br>the flow of material, if this is without risk. ELIMINATE all ignition sources<br>(no smoking, flares, sparks or flames in immediate area). Stop leak if you<br>can do so without risk. |  |
| Environmental Precautions:   | Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.   |  |
| 7. Handling and storage  |  |  |
| Precautions for safe handling:   | Avoid contact with eyes. Wash hands thoroughly after handling. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use.     |  |
| Conditions for safe storage,<br>including any<br>incompatibilities:        | Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Aerosol Level 3  |  |

### Individual protection measures, such as personal protective equipment

| General information:                | Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |
|-------------------------------------|--|
| Eye/face protection:                | Wear safety glasses with side shields (or goggles).  |
| Skin Protection<br>Hand Protection: | No data available.   |
| Other:                              | No data available.   |
| Respiratory Protection:             | In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.  |
| Hygiene measures:                   | Avoid contact with eyes. Observe good industrial hygiene practices. When using do not smoke.   |
